SIDEWALL

Sidewall comes from the experience of three Italian companies who put in a network their history, their skills, their men believing that produce a good belt is a mission:
SIG | LAVORGOMMA | MORINAT

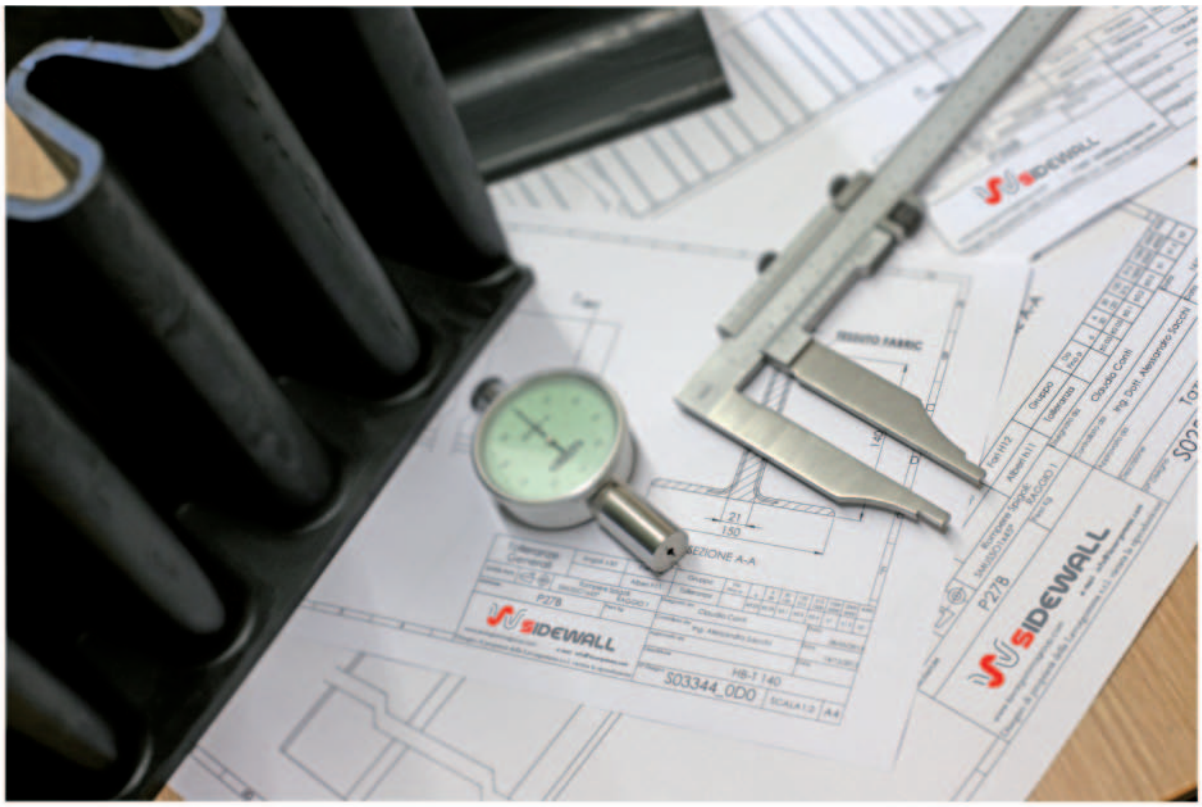

Tailor made

we manufacture your belt, to fit your needs

Our engineers will assist you in the study of the correct design and will help you to choose the most suitable belt for your application, to achieve the best performances on long term basis.

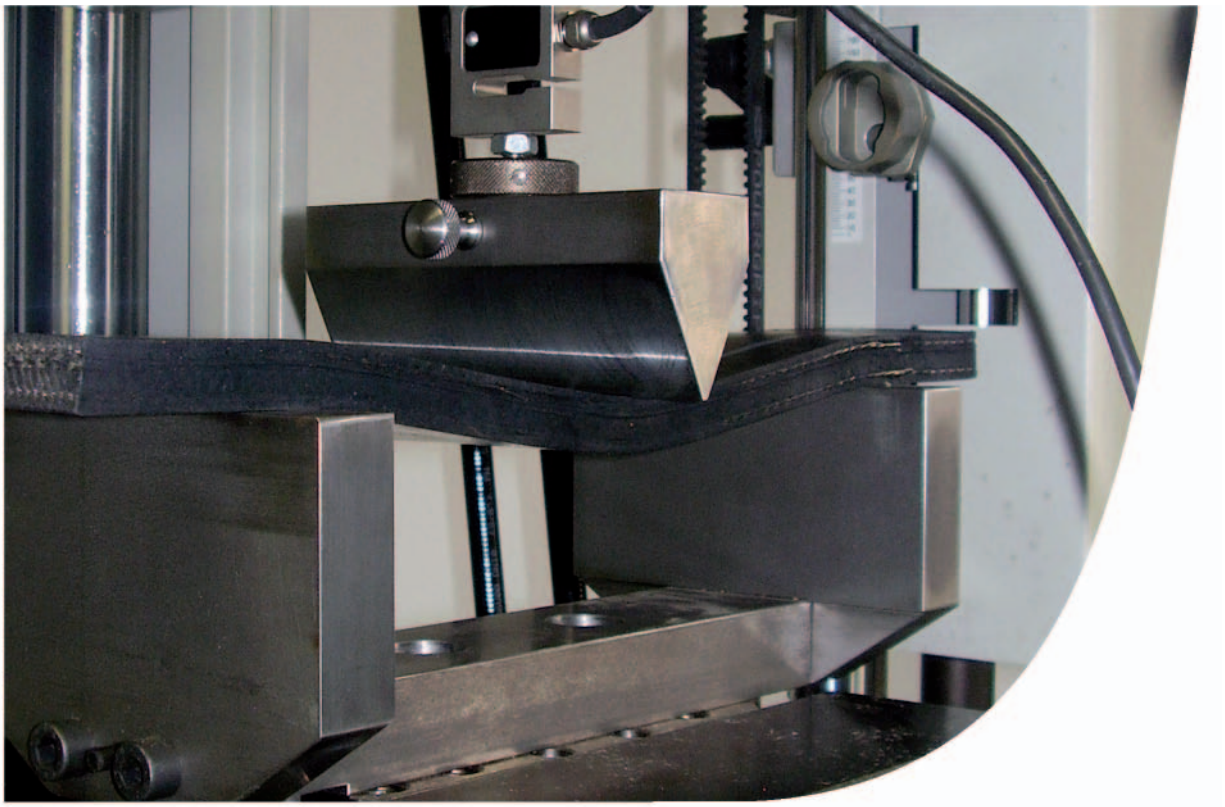

SIDEWALL

Raw Materials / Laboratory Tests
made in Italy

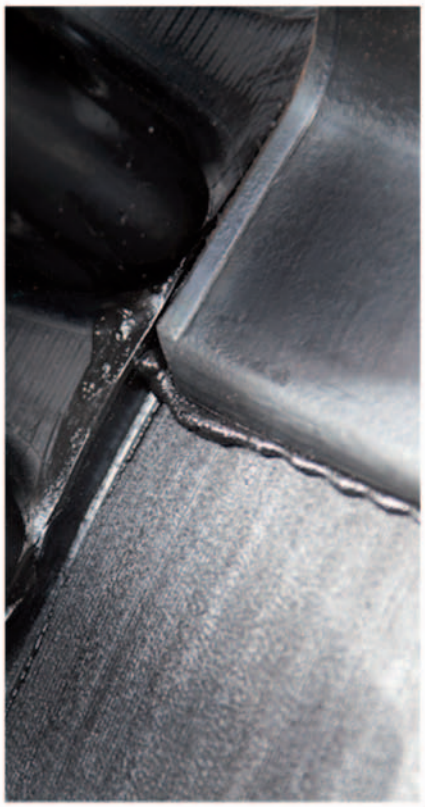

All Sidewall's components are made in Italy by top-quality and constantly tested raw materials.

Hot vulcanization
reliability

Corrugated sidewall and cleats are HOT VULCANIZED onto the belt to guarantee a greater and long lasting adhesion on all profiles.

SIDEWALL

Performance and on site service

3 production lines, 150 m of daily production capacity and dedicated stock to assure a faster delivery.
Worldwide after-sale service (erection, splicing, start-up) involving top-specialized engineers.
